

Argon5C

Argon5C centre speaker is designed to work seamlessly with all Argon loudspeakers. It can be also used on its own either in 2-channel or home theatre systems. Their advanced acoustic design principles, high-quality drivers, and unique crossover allow you to discover the beauty of sound in a thrilling way, even at low listening levels. The wide, even dispersion ensures that this experience is similar - even if one is not sitting in the centre seat. As with all Amphions, these loudspeakers are highly adaptable to any interior design, offering a multitude of colour options.
