

Helium520C

Helium520C centre speaker is designed to work seamlessly with all Helium loudspeakers. It can be also used on its own either in 2-channel or home theatre systems. Its advanced acoustic design principles, high-quality drivers, and unique crossover allows you to discover the beauty of sound in a thrilling way - even at low listening levels. The wide, even dispersion ensures that this experience is similar - even if one is not sitting in the centre seat. As with all Amphions, these loudspeakers are highly adaptable to any interior design, offering a multitude of colour options.
