

1

**Structure & trademark**

The Amphion logo must always be used inside its black background box.

Always use the Amphion logo with the registered trademark symbol (®), except when the mark becomes illegible at small sizes.

2

**Logo variations**

Always use the Amphion logo with its background box.

- Borderless version on light backgrounds
- White-bordered version on dark backgrounds

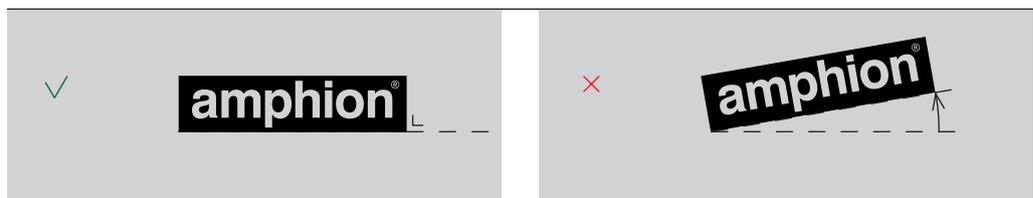

*Note: Any other logo versions found online or part of older materials and are no longer in use.*

3

**Alignment**

The Amphion logo must always be aligned horizontally. Do not tilt, rotate, or distort the logo in any way.

4

**Placement & margins**

Maintain consistent margins around the Amphion logo. The minimum distance from any edge must equal x.
